Eugene J. Randall met with a painful accident Tuesday evening at the chamber of commerce, during the supper which preceded the monthly meeting, when he fell down the stairs leading from the main entrance to the corridor to the show. His injuries consisted of a badly fractured right leg between the knee and ankle, a bruised right thigh and a laceration on the head. The cause of the accident is directly attributed to the fact that the carpeting on the stairs was torn and slipping.

Mr. Randall was assisting during the evening in the preparation for the supper and had just directed a late caller to the dining hall when he stepped into the corridor at the foot of the stairway where the lights went out at 7:30, and instead of walking into the hall as he thought he was doing he stepped on the torn carpeting. Some of the members of the board, John P. Collins, found Mr. Randall at the bottom of the stairs in a semi-conscious condition. He was assisted up the stairs and was bleeding from cuts on his head when Dr. F. E. Wilcox arrived closely followed by Dr. A. G. Goss. The physician found that Mr. Randall had a fractured right leg, although Mr. Randall said that he did not feel his leg as much as his thigh. Mrs. Randall, who was attending a meeting at the Methodist church, was sent for and following treatment by Dr. Wilcox, Mr. Randall was taken to his home on Valley street by Jay M. Shepard in his touring car.

Shareholders now receive five per cent interest. The matter of having a permanent secretary for the chamber of commerce was discussed. An increased membership and annual dues would pay for this, it was explained. President Hill said that the next year's budget should be large enough to pay all expenses. Individuals and committees who go out of town in the interest of the organization now have to pay their own expenses. Some of the members thought that this was not a very good time to obtain a secretary, although the idea was a good one. A committee of nine was appointed to look into the matter of reviving the city charter, and report at a future meeting. A resolution committee was then appointed. Rinso suds work down into every fold and fibre.
